Skills

Java
Spring Boot
MySQL
React JS
Postman
REST API
Flutter

Projects

EMPLOYEE MANAGEMENT SYSTEM

Programming Language: Java

Frameworks and Libraries: Spring Boot, Spring MVC, React JS, AXIOS

Database: MySQL

API Development: REST API

Tools: Postman

This is simple Project for self-learning purpose. We can access the Employees details, we can perform CRUD operations. I have used Spring MVC for REST APIs for Back-end implementation and used AXIOS library in React to fetch data's from front-end and send that to backend.
